

**THE GOLF ASSOCIATION OF MONTENEGRO
PROGRAMME FOR THE PERIOD 2025-2028**

Content:

Planned programs and goals for the period 2025-2028

1. Development and promotion of golf among young people
2. Development and improvement of amateur sports
3. Development and advancement of professional staff
4. International sports cooperation
5. Golf tournament organization and handicap management
6. Development of infrastructure, driving ranges and golf course

Planned program and goals for the period 2025-2028

1. Development and promotion of golf among young people

Goal: Developing a Junior Golf School program in Montenegro, which will contribute to the development of children's and youth sports, while nurturing golf values: courtesy, respect, honesty, integrity, perseverance, fair behavior, good judgment, responsibility, self-confidence. Creating opportunities for the development of promising young golfers.

Goal: Establishing cooperation with elementary schools in Montenegro. The first level of cooperation with elementary schools consists of an interactive golf presentation to students and the presentation of the golf school program. After the presentations, children can attend the first training session, after which they decide to eventually join the Golf School. Teachers who conduct the program undergo training as golf demonstrators and are trained to independently conduct classes. On a monthly basis, GSCG sends the program to members with a work plan, which they will present to schools participating in the program in their cities and provide continuous supervision and support. After passing the first level, school students could practice in golf clubs as well as participate in tournaments organized by the GSCG or its members.

1. DEVELOPMENT AND IMPROVEMENT OF GOLF AMONG YOUTH				
ACTIVITY	MEASURES	INDICATORS ACTIVITIES	DEADLINE	RESOURCES
